

SOLAR DIVIDE II LED FRAME

Short Description:

SKU: 312258

\$299.95

A bold celestial composition, this mixed media piece balances light and shadow through a dramatic split design and radiant sunburst center. Layered texture, sculptural ridges, and metallic gold accents create striking depth against black and white fields, while the sleek frame gives the artwork a refined, gallery-finished edge. Its vertical scale and luminous motif make it a natural focal point above a console, in an entryway, or as a statement accent in a bedroom or living room. Textured mixed media creates dramatic visual depth.
